

YORKSHIRE PRECISION ENGINEERING LIMITED

HEALTH AND SAFETY POLICY STATEMENT

Yorkshire Precision Engineering limited commands a wealth of experience in production and supply of precision components to clients and customers in a wide range of commercial activities

Supply of precision components covers a wide spectrum of applications and the company boasts several 'blue-chip' customers as 'partners'. This customer base contains clients from varied industry sectors including automotive, aerospace, marine, medical and surgical and the brewing industry.

Yorkshire Precision Engineering, based in the North of England, serves customers in the whole of the United Kingdom – and beyond.

The company fully understands its responsibilities in ensuring and promoting, as far as is reasonably practical, the health, safety and welfare of all members of staff and associates involved in any activity, or undertaking, related to the company.

Having secured this understanding, we recognise the need for full commitment of all members of our organisation, including senior management, whose commitment includes the provision of all necessary resources to ensure the effectiveness of this policy

This policy embraces the duties of the Health and Safety at Work Act, the requirements and implications of which are applied to all activities, in which the company is involved. Company objectives are to reduce accidents and damage and encourage a conscious 'health and safety culture' throughout the workforce.

The company provides a safe working environment for all activities – this including the equipment necessary to complete the activity safely and successfully. In support of this all members of staff and associates are required to follow company procedures and instructions in order to ensure that hazards, accidents and resulting damage are minimised and eliminated.

Monitoring of this policy (and objectives) occurs by the review of each incident and the determination of its root cause. This process engineers improvement and all associated health and safety plans are subsequently revised and fully implemented.

Our commitment can be demonstrated by the progressive implementation of mechanisms to prevent accidents and the setting of improvement objectives fulfilling the spirit of the international standard – OHSAS 18001: 2007

Signed:

Managing Director
Samuel Laybourne
